Part 2

Aims and objectives

Please read the guidance document *Statement of purpose: Guidance for providers*.

Aims and objectives

What are your aims and objectives in providing the regulated activities and locations shown in part 3 of this statement of purpose

Acorns (Southern) Ltd aims to support vulnerable adults in a shared living accommodation to maximize their independence and assist them in becoming integrated into their community. We recognise the experience of shared living as a valuable lifestyle which helps each individual feel connected and part of a community. Although within the buildings each area can vary from a bedroom unsuits to a 1 bedroom flat.

The homes will offer placements for up to 4 adults with Learning Disabilities and challenging behaviour from 17 years of age. Each resident will have their own individual tenancy agreement for a bedroom with en-suite bathroom and will share the common rooms. Or their own 1 bedroom flat within the home or a studio flat within the home. All tenancy is with Home –life LTD. A none for profit company.

The staff will provide individual support to the tenants, according to assessed needs while maximizing self-determination, resilience and choice. Each tenant will have a personal support plan agreed with the individual and we take great care to ensure the wishes and aspirations of our service users are heard and acted upon. The support plan will include support with personal care, accessing services and exploring new opportunities with each individual service user, with a focus on empowerment and self-determination. The support service will be assessed and reviewed regularly to ensure progress and to plan future goals.

All service users will be supported to identify a suitable health centre/GP, dentist, optician and any other health service they need. Our staff also assist each individual service user in accessing activities and organisations of their choice. We operate a risk management process which values the benefits of each individual making informed choices about their lifestyle. This does not make us risk-averse, rather it makes us risk-aware and therefore helps the staff support the individual to have all the information possible in their choice-making. They will be able to choose where they live, who they live with, how they are supported, who supports them, choose their friends and relationships, how to be healthy and safe, how they are part of the community and have the same rights and responsibilities as other citizens.
